1. H5P

- **Overview:** H5P is a free, open-source platform that allows you to create interactive content, including multiple choice questions, drag-and-drop activities, cloze exercises, and more.
- **Key Features:**
 - **Multiple Choice:** Create multiple choice quizzes with feedback.
 - **Drag and Drop:** Design interactive activities where users can drag items to the correct location.
 - **Cloze:** Create fill-in-the-blank (cloze) exercises where users fill in missing words.
 - **Matching:** Create matching exercises where users match pairs of items.
- **How to Use:** You can use H5P through its website or integrate it into platforms like WordPress or Moodle.
- **Website:** [H5P](https://h5p.org/)

2. Quizizz

- **Overview:** Quizizz is a free tool for creating quizzes and interactive exercises, including multiple choice questions. It allows students to interact with quizzes in real-time.
- **Key Features:**
 - **Multiple Choice:** Create multiple choice questions with instant feedback.
 - **Matching:** You can design matching exercises, though more limited compared to other platforms.
 - **Gamification:** Offers interactive, game-like quizzes that make learning fun.

- **How to Use:** Sign up for free and create quizzes. It also offers integrations with Google Classroom.
- **Website:** [Quizizz](https://quizizz.com)

3. Educaplay

- **Overview:** Educaplay is an easy-to-use platform for creating a variety of interactive exercises, including multiple choice, matching, and drag-and-drop activities.
- **Key Features:**
 - **Multiple Choice:** Design multiple choice questions with answers and explanations.
 - **Drag-and-Drop:** Create activities where users can drag items into different categories.
 - **Matching:** Make matching exercises with pictures or words.
 - **Cloze:** Create fill-in-the-blank exercises with text.
- **How to Use:** After signing up for a free account, you can easily create interactive activities and share them with others.
- **Website:** [Educaplay](https://educaplay.com)

4. LearningApps

- **Overview:** LearningApps is a free tool for creating a variety of educational games, including multiple choice, matching, and cloze exercises.
- **Key Features:**
 - **Multiple Choice:** Create quizzes with multiple choice options.
 - **Matching:** Design matching exercises where users link items.
 - **Cloze:** You can create text-based exercises where users fill in the blanks.
 - **Drag-and-Drop:** Offers drag-and-drop exercises, especially in pairing tasks.
- **How to Use:** Register for a free account and begin creating interactive exercises from templates or by building your own.
- **Website:** [LearningApps](https://learningapps.org)

5. Wordwall

- **Overview:** Wordwall is a versatile tool for creating interactive games and exercises like multiple choice, matching, cloze, and more.
- **Key Features:**
 - **Multiple Choice:** Allows for multiple choice quizzes with various templates.
 - **Matching:** Create matching exercises that pair items together.
 - **Cloze:** Design fill-in-the-blank activities.
 - **Drag-and-Drop:** Create drag-and-drop activities where users sort or categorize items.
- **How to Use:** Sign up for a free account and start creating activities. You can choose from pre-made templates or customize your own.

- **Website:** [Wordwall](#)

6. Google Forms

- **Overview:** While Google Forms isn't specifically designed for interactive games, you can use it to create multiple choice and short answer quizzes with feedback.
- **Key Features:**
 - **Multiple Choice:** Create quizzes with multiple choice, short answer, and checkbox questions.
 - **Cloze:** Use the "short answer" type to create fill-in-the-blank exercises.
- **How to Use:** Create a form with Google Drive, add the quiz questions, and configure it for quiz functionality. You can also add images and videos to make the questions more engaging.
- **Website:** [Google Forms](#)

7. Typeform

- **Overview:** Typeform allows you to design interactive, user-friendly forms and quizzes, though the free version has some limitations.
- **Key Features:**
 - **Multiple Choice:** Create attractive multiple-choice questions.
 - **Cloze:** You can use the "Short Text" field to create fill-in-the-blank exercises.
- **How to Use:** Sign up for a free account, and create forms or quizzes that allow a personalized, engaging experience.
- **Website:** [Typeform](#)

8. Plickers

- **Overview:** Plickers is a free, interactive tool for creating multiple choice quizzes, primarily aimed at classroom settings.
- **Key Features:**
 - **Multiple Choice:** Users answer multiple-choice questions by holding up cards.
 - **Real-Time Results:** Instant feedback to see how students perform in real-time.
- **How to Use:** Create multiple-choice questions and use physical cards to collect responses.
- **Website:** [Plickers](#)

9. Kahoot!

- **Overview:** Kahoot! is a popular tool for creating interactive quizzes, surveys, and games.
- **Key Features:**
 - **Multiple Choice:** Easily create multiple-choice quizzes and surveys.
 - **Matching:** You can create games where users match answers to questions.
 - **Gamification:** Great for turning quizzes into competitive, game-like experiences.

- **How to Use:** Sign up for a free account, create quizzes, and share them with your audience.
- **Website:** [Kahoot!](#)

10. Edpuzzle

- **Overview:** Edpuzzle allows you to take any video (from YouTube, Vimeo, or your own uploads) and turn it into an interactive learning experience by adding quizzes, notes, and questions.
- **Key Features:**
 - **Interactive Videos:** You can upload or use existing videos and add interactive elements like multiple choice questions, short answer questions, or polls at specific points in the video.
 - **Tracking:** Monitor students' progress and see how they interact with the video.
 - **Assignments and Quizzes:** Add quizzes or written assignments based on video content.
- **How to Use:** After signing up for a free account, you can search for videos or upload your own and start adding questions and interactive elements.
- **Website:** [Edpuzzle](#)

11. PlayPosit

- **Overview:** PlayPosit allows you to create interactive video lessons, incorporating quizzes, polls, and other interactive elements directly into videos.
- **Key Features:**
 - **Interactive Video:** Add multiple-choice questions, fill-in-the-blank, polls, and other interactive elements at specific times within the video.
 - **Integration with LMS:** Integrates with platforms like Google Classroom and other Learning Management Systems (LMS).
 - **Analytics:** Provides detailed reports and analytics of how students interact with the video.
- **How to Use:** Sign up for a free account to create interactive video lessons. You can upload your own videos or use videos from platforms like YouTube.
- **Website:** [PlayPositYes](#),

10. ePub

ePub editor (abbreviazione di *electronic publication*, "pubblicazione elettronica", e indicato anche come **EPub**, **epub**, o **EPUB**) è uno standard aperto specifico per la pubblicazione di libri digitali (**eBook**) e basato su XML. <https://www.epubeditor.it/home/home/>.

11. Google Classroom with Google Forms and YouTube

- **Overview:** While not specifically designed for interactive video creation, Google Classroom combined with YouTube and Google Forms can create a complete learning unit.

- **Key Features:**

Embed YouTube Videos: Embed YouTube videos directly into Google Classroom.

Interactive Quizzes: Use Google Forms to create quizzes (including multiple choice, fill-in-the-blank, etc.) based on the video content.

Feedback: Provide feedback and grades through Google Classroom.

How to Use: Upload your video to YouTube, share it via Google Classroom, and link quizzes created in Google Forms for interactive exercises.
